Omar:

See Pictures.

The pictures from 8/2/14 are after the COH actions on 8/1/14 and before OMI (TCEQ Contractor) started their cleanup.

The pictures from 8/8/14 are from after demobe. TCEQ flushed all ditches and stained areas with fresh water and may have used some microblaze on the stained areas and sucked up all the water in the ditches. EPA ended up weedeating the stained grass and collected the clipping but you can still see the staining.

Thanks

Gary Moore
